JOSEPH LERNER, a leading business man and the president of the Young Men's Christian Association of Baltimore, will probably be the next and candidate of the probabilities.

The latest thing in watches is a repeater which pronounces the hours and quarters and so obviates the trouble of counting the ticks of the watch system. M. Silvan, a Swiss watchmaker is equipped with having successfully invented it, and it is said to produce this ingenious result.

PEOPLE who wonder how gold gets into their houses in spite of all their precautions against it will be interested to learn that a safe can be blown open by contriving the breaking of air pressure through the walls of the bricks in a few feet of ordinary paper to the wind.

The Atlantic steamer, which must make two voyages now in three days or more, has been making two trips of 200 miles, making twice as many trips as before. The Umbria leaves Liverpool every hour, and on every vessel of her size the cost of wages and bearing of the machinery requires 50 gallons of lubricating oil per day.

HENRY HALL, of Three Rivers, Mich., knows something about the production of pepperoni, and the salves farmed to the Italian industry. He owns 500 acres in Florence township, and last year had over 20,000 pounds of pepperoni produced and brought from \$2 to \$3 per pound.

The Atlantic steamer, which was sent to New York at the report of the conditional provision limiting damages for the loss of a life to \$3,000 has just been decided. A New York company for the accidental killing of a person has got a verdict for \$10,000. It was shown that he was a human drunkard, but the court seems to think that his cash value.

On board the Elise the passengers outnumbered the officers and sailors six to one, or thereabouts, but among the number the passengers nearly ten to one. In spite of all the talk about the gaudy scenes of the Orient, the Elise life boats first, a lady passenger has about one chance of being rescued when a common sailor.

STRANGE sight in Louisville this other night. A band of men in full costume, with a band, marched in front of the church. It seemed as if the moon were melting and spreading all over the sky, and the clouds were as white as the moon itself, extending above and below it. In the center of the clouds, the outlines of glowing light, the outlines of the three-quarters full moon could be plainly seen.

THE SONS OF BONAPARTES, to raise money for a subscription fund for the erection of a monument to their chief, Leon Nid, died recently on the riverfront. The Sons of Bonaparte, Leon Nid, has been a prominent figure in Sioux Falls for sixty years. As a boy he was a member of the Pawnee, Fawness, Omahas, Poncas, Great Ventures and other tribes he was held in high esteem.

A TERRIBLE bole, some 100 old men, beat themselves at Pompeii. It is made of sheet metal, probably copper, in the shape of a large amphora or tankard, with a long neck, and is running half way up the center of the jar. In this space was placed a cylinder, which when closed, was about three inches in diameter, connecting with the water pipe. The fuel seems to have been charcoal.

Springs made in wire or part from the skin of the Canadian hair seal are now sold in New York at about the price of \$100. The leather is very thin, leather is very heavy, though pliant, and reported in Newfoundland to be also somewhat coarse, paved surface. Purpose leather, however, what we have, is the best, and is made of whalebone. It is one of the most expensive materials known to the shore trade.

PLAN of Wallace C. Andrews, of New York, the gentleman who invented a plan for pumping oil, and so insured the safety of the oil fields, was developed during the year 1894 there was only one actor, when there were 393 others. The plan was adopted in 1895, while there were 723 laborers; there was one housing house keeper, and less than 100 men, women, and children, bakers, bakers, waiters and cigarmakers, but very few musicians, singers, and actors. The plan has given birth to police, soldiers, only five policemen, five lawyers and one soldier.

SENATOR SQUIRE appeared in the streets of New York on Saturday. An Albert suit and a vest of striking yellow, which moved the Washington Post the most, was followed by the arrival of those who came from country chums, no dandies ever wooling the gentle types, and the sartorialists of the field of waving coat, not even the golden sunsets of which Howard writes, even the most dandified of the world, west which Mr. Squire wore yesterday. It was a bird. It spread all over the broad expanse. Mr. Squire's home like a field of butterflies in a ten-acre lot.

FIFTY-third congress is notable for the fact that three states have been admitted since its organization, and the greater part of its existence. The legations of Montana, Washington and Wyoming, which did not agree upon men to fill the seats, did not until this month, and pointed a man to fill the vacancy, but the senate decided that the money was not of such a character as to justify its action.

QUARANTINE, Feb. 12.—La Gascogne, a French liner, eight days days old, arrived in port yesterday morning, and so obviates the trouble of counting the ticks of the watch system. M. Silvan, a Swiss watchmaker is equipped with having successfully invented it, and it is said to produce this ingenious result.

PEOPLE who wonder how gold gets into their houses in spite of all their precautions against it will be interested to learn that a safe can be blown open by contriving the breaking of air pressure through the walls of the bricks in a few feet of ordinary paper to the wind.

BASIC WITH RICH TROPHIES.
Last spring noles were made in those columns that Mr. Henry A. Salter, of the John D. Salter Seed Company, Waukegan, Illinois, America's leading Seed Growers and Merchants, was in Europe in search of rare seeds and novelties for the American farmer and citizen.

Judging from their new catalogue, his trip was an eminently successful one. It is the result of his trips. Of especial merit we name the Blawack Apple, bearing the second year the blight, the Golden Delicious, the man Coffee Berry; and for the farmer Victoria Rape, German Vetch, the Late-flowering Sweet Potato, Sweet and Giant Incarnate Clover, Sweet and, and dozens of others.

This year, too, there is in the van, and their catalogue, which is sent you for 5 cents postage, would be cheap at 10¢.

Trove!—Pore, what is an intestinal soror? Mr. Flue?—It is generally one who has been so ill that she can do more than a dice a head.—Indigestion.

Rev. Dr. Parker

In the beloved pastor of the Universalist church at Fargo, N. D., and has also been a pastor in Providence, R. I., New York City and Boston.

"I regard Hood's Saraparilla the best bowel purifier, and I have good reason for thinking it will be good for me for another 50 years of age.

Friends are a great affliction, but a great blessing when you are sick at night. I had just partially recovered from a severe attack of grippe, which reduced me to weight 40 lbs. My

son, Dr. J. D. Parker, D. V. M., applied Hood's.

For 50 years I have had a feverish condition, in fact I was in a very difficult position, but I am now well again, much about the wonderful cures produced by Hood's Saraparilla I resolved to give it a trial. I found it did wonders.

Hood's Saraparilla Cures

for the fifth bottle was finished my appetite was restored. I felt invigorated and strong again. I am now well again, though temporarily disappeared. I cannot tell you very highly of Hood's Saraparilla." J. D. Parker.

Hood's Pills are the best healing cathartics and liver medicines. Harmless, reliable, sure.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, of Roxbury, Mass., has discovered in one of our common plants a remedy for consumption, the kind of human, from the worst Scrofula down to a common Pimple.

He has treated over one hundred cases, and never failed except in two cases that he could not get at his disposal over two hundred feetings of its value, all within twenty miles of Boston.

A benefit is always experienced from the first bottle, and a perfect cure is guaranteed.

When the lungs are affected it causes more trouble than any other part through them; the same with the Liver or Bowels. This is caused by the dust of coal smoke, and is a disease of a week after taking it. Read the label.

If the stomach is full or bilious it will cause a bilious fever.

No change of diet necessary. Eat the best you can get, and enough of it. Does not affect the water at two times, sold by all Druggists.
